

The Templeted Catalog maintains character limit for every section. This restriction is ruled out in the product catalog pages by this '**File Attachment**' feature. Wherein, it provides an option to illustrate products or services in detail. This file attachment feature facilitates you to upload any file that has **.doc | .xls | .pdf | .ppt | .swf | .txt** as default extension name. Attaching PDFs, Text Files, Charts, Images and more, ideally serves the purpose.
